

Ltd. Disinfection Service Plus

Occupational Health, Safety and Environmental Security Policy Statement

Company "Disinfection Service Plus" fully recognises assumed environmental and social responsibilities while delivering pest control services (disinfection, disinsection, diratization, snakes' control, stray animal control, wasps' control, weeds control).

We act based on the principle – no incidents, no harm to people, no negative environmental impact.

We aspire to continuously improve our Occupational Health, Safety and Environmental Security system through setting and meeting HSSE targets.

Our HSSE accounting system is developed with consideration of real facts in order to deliver clear and transparent depiction of all aspects of implemented pest control activities. Reports elaborated by our company are available for internal and external use.

We pay particular attention on the health safety and security of our employees as well as on the health safety of the society living in the area of our operations.

All activities, applied products, and delivered services are in full compliance with the HSSE requirements of our Customers.

Our services are in full compliance with the local legislation and EU standards and norms.

We ensure high competency level of our employees via trainings and site practicing.

Fulfilment of the above-given commitments is the primary and utmost responsibility of our Safety Leadership Team.

Merab Moistsrapishvili. Director

Ltd. Disinfection Service Plus
